

First International

RiPPs Conference

24-26 April 2019, Granada, Spain

In spring 2019 the First International Conference on RiPPs (Ribosomally synthesized and Post-translationally modified Peptides) will be organized, in the beautiful town of Granada, Spain. We aim to discuss a broad range of topics concerning this class of natural products.

We can accommodate ~80 participants including 8 invited speakers; from the submitted abstracts 21 will be selected for a short talk while others will have the opportunity to present a scientific poster. The registration fee is 350 Euros including a visit to the Alhambra.
